Business: The group's principal activities are to engineer, manufacture and market electrical and electronic products. It manufactures and sells electrical and electronic products for commercial, industrial, telecommunications, utility and residential applications. The group operates in three segments: electrical, power and industrial technology. The electric segment sells wiring device products, lighting fixtures and fittings. The power segment designs and manufactures construction, switching and protection products used in transmission and distribution of electricity. The industrial technology segment designs and manufactures test and measurement equipment, high voltage power supplies and variable transformers. It also manufactures communications systems such as intra-facility communications systems, telephone systems and land mobile radio peripherals.
