**Business:** The group's principal activity is to provide engineering and energy expertise for public and private sector clients. It operates three segments: engineering, energy and non-core. The engineering segment provides a variety of design and related consulting services. Services include design-build, construction management, consulting, program management, site assessment and restoration, strategic regulatory analysis, regulatory compliance and advanced management systems. The energy segment specializes in providing a full range of total asset management services for operating energy production facilities. Services include training, personnel recruitment, pre-operations engineering, maintenance management systems, field operations and maintenance, procurement and supply chain management. The non-core segment consists of buildings and transportation construction operations. The group has operations in Texas, Louisiana, Wyoming, Montana and the gulf of Mexico.
