Business: The group's principal activities are to explore, produce and market oil and gas properties. The group operates in two segments: exploration and production segment and natural gas marketing segment. Exploration and production activities include the exploration for and development of productive oil and gas properties located primarily in Oklahoma, Kansas, Texas and Louisiana. The natural gas marketing segment markets most of the natural gas produced by the exploration and production segment as well as natural gas produced by third parties.

Business: The group's principal activity is to provide diversified communications services. These services are provided through four segments: local communications, broadband, wireless and other. The local communications segment provides local, long distance, data networking and transport, Internet and pay phone services, as well as sale of communication equipment. The broadband segment utilizes an advanced fiber-optic network to provide private line, switched access, data transport, Internet-based and other services to end user customers. The wireless segment provides advanced digital personal communications and sale of related communication equipment. The other segment resells voice long distance and provided public payphone services.
