## 1192 - Miller Petroleum Inc

Business: The group's principal activity is to provide nutritional adjunct to the medical treatment for chronic immuno-compromising debilitating diseases like acquired immune deficiency syndrome, hepatitis and cancer. The group is a research based bio-nutraceutical corporation in the field of nutritional science. The group developed two novel enteral nutritional formulas resurgex(R) and resurgex plus(tm), which plays an important role as a nutritional adjunct to the medical treatment for certain chronic immuno-compromising debilitating diseases. The resurgex(R) and resurgex plus(tm) have been formulated to address the loss of lean muscle, nutrient depletion, immune support, mitochondrial dysfunction and oxidative stress in individuals, undergoing medical treatment for chronic immuno-compromised medical conditions

Business: The group's principal activity is to develop innovative fuel systems for the safe storage, transportation and generation of hydrogen for use as an energy source. It has developed and applied for patents for a proprietary process called Hydrogen on Demand(tm) that safely generates hydrogen from environmentally friendly raw materials. The technology developed by the group can be used to generate hydrogen for use by fuel cells in the production of electricity, generate hydrogen for use by modified internal combustion engines and provide hydrogen for other industrial purposes. The group has also designed and produced prototype direct fuel cells and batteries that utilize the sodium borohydride process to provide electricity for the portable and stationary power markets.
