**Business:** The group's principal activity is to provide information technology services such as programming, systems integration, outsourcing and overall project management. The group provides services to customers in the financial, healthcare, transportation, information/communication industries and government entities. The group operates through three segments, applications outsourcing, e-business and teamsourcing. Application outsourcing provides higher-value applications management services for ongoing management and maintenance of customer's business applications. E-business provides development and implementation services for a number of emerging and rapidly growing high technology applications, including Web development, crm, oracle and sap. Teamsourcing provides professional information technology consulting services directly to customers on a staff augmentation basis.
