Business: The group's principal activities are to manufacture and market packaging resins and polyester products. The products include fortrel brand polyester textile fibers, polyester fibers made from recycled raw materials and permaclar pet (polyethylene terephthalate). The group operates in two segments namely fibers and recycled products group (frpg) and packaging products group (ppg). Frpg manufactures chemical-based polyester staple fibers and polyester partially oriented yarn for the textile industry and for industrial products. Ppg manufactures solid-stated and amorphous pet resins used in the manufacture of soft drink bottles, food and beverage packaging. The group's products are marketed in the United States and Europe.
